

Tech Data: Oversize

Options
<p>Oversize</p> <ul style="list-style-type: none">• Over 58" high door or panel• Over 58" wide panel• Dimensions can be custom

Oversize

Door and panel heights over 58" are considered oversize. Panel widths greater than 58" are also considered oversize. Components may be specified to any dimension.

Pilasters

Shoes are 22 gauge ASTM A-167 stainless steel with satin finish, not less than 3" in height.

Door Hardware

Hinges are surface mount and strikes/keepers are wraparound style. Slide latches, coat hooks, and bumpers are surface mounted. Door pulls are through bolted. All fasteners are tamper proof.

Brackets

Stirrup-type one ear, two-ear, and u-brackets are provided with theft resistant fasteners.

Considerations

- Door height/weight and hardware selection dictate maximum component height.
- Local building and ADA code should be reviewed for compliance.
- Directional patterns may limit stall depth
