

Tech Data: Solid Plastic

Options

Solid Plastic Materials

- 100% post-consumer recycled available
- Virgin plastic available
- A wide range of colors and patterns
- Class B/2 fire rated available

Solid Plastic

Manufactured from 100% post-consumer recycled HDPE or from virgin HDPE. Homogeneous composition minimizes the visibility of scratches and minor damage. Appropriate for wet and high traffic areas.

Doors and Panels

Doors and panels made from solid plastic are 1" thick (typical).

Pilasters

Plastic pilasters are 1" thick (typical). Shoes are 22 gauge ASTM A-167 stainless steel with satin finish, not less than 3" in height.

Door Hardware

Hinges are surface mount and strikes/keepers are wraparound style. Slide latches, coat hooks, and bumpers are surface mounted. Door pulls are through bolted. All fasteners are tamper proof.

Brackets

Stirrup-type one ear, two-ear, and u-brackets are provided with theft resistant fasteners.

Considerations

- Material availability may affect lead times.
- Available in headrail braced and floor to ceiling styles only.
- Job site handling should be minimized.
- Material must be stored flat.
