Ensure engraving height and width ratios are acceptable on both standard and ADA toilet doors in your project. All inlay corners will have a 1/8" minimum radius. Inlay depth will vary depending on material selections. Follow the link to order a stock inlay sample: [Samples](#) Expect increased lead time for custom or specific pattern samples. Inlay available in Wood Veneer, High Pressure and Compact laminate materials with stainless steel, black steel, and brass. Standard inlay patterns are subject to change without notice.
